Right – CDM went in this morning and changed the status to public. I didn't realize notifications would be sent to everyone for this change.

I talked to Stan from demaximis. Stan stated that NO CHANGES were performed on these documents. The only reason that everyone received postmasters is that these were sent to various services for public comment.

Subject: Sharepoint notifications today...

I just received a bunch of notifications that the RM 10.9 Draft Final Design has been modified. The only modification is (I think) that the documents were made public instead of private, for posting on the ourpassaic.org website.

Thanks

Stephanie Vaughn
